

Two Silent and Still Minutes

for Peace, Worldwide

P.O. Box 36, E. Swanzey, NH 03446

Dear Friend,

At noon, April 4, 1984, a two-minute period of silence and stillness will be observed internationally. The silence will follow the sun, going from time zone to time zone. The stillness will flow like a wave around the world.

That wave will carry a simple but urgent message - the desire of humankind for peace.

Like its message, the gesture is quite simple. It can be observed through meditation, prayer or a break from daily activity. But its simplicity is its power. People worldwide will be able to show their leaders that they can stand united for peace.

The idea originated with Ted Moe, a postmaster in East Swanzey, N.H. who was disturbed by the increasing level of international tension. He organized our group to coordinate the event. We intentionally chose a date that has little significance anywhere in the world. We also decided to invite all groups to participate but to avoid association with any political, religious or national organization.

We do not underestimate the task before us. We need the help of individuals and groups who can spread the message around the world. Please help us by copying this note and sending it to someone who would be interested in participating. Or translate its message and send it to people you know abroad.

Together, we can make silence a deafening message for peace.

Thank you.
